

Dear Carolyn Forte:

SUBJECT: Little Giant XTREME™, Little Giant Ladder's Safest Product, has Finally Arrived!

Little Giant Ladders is pleased to announce that it has outdone itself and built the perfect ladder to be used in a variety of situations, can handle almost any job, and is safety proof in every way, that it is OSHA and ANSI certified. It is called the Little Giant Xtreme™.

This ladder can be used in lots of different ways so you can accomplish any job. A lot of greater and more helpful safety features have been added to it such as little extensions to its base so you can function on uneven surfaces.

It also now has an attachable tool base for the top of its frame to support tools and paint. It is more structurally sound and is easier to move around with its light frame and built-in wheels to be pushed around.

Everyone at Little Giant Ladders is so pleased with our newest product that we are hoping that this information about the Little Giant Xtreme™ will make you excited too.

For more information, contact me by my phone at 801-369-5158 or through my e-mail brady.lesueur@gmail.com.

Sincerely,

Braden K. LeSueur
